Independent Auditors' Report

The Board of Directors
East Jefferson General Hospital

Report on the Financial Statements

We have audited the accompanying financial statements of the East Jefferson General Hospital Retirement and Savings Plans (the Plans) as of and for the years ended December 31, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the Plans' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net position of the East Jefferson General Hospital Retirement and Savings Plan at December 31, 2013 and 2012, and the changes in plan net position for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 13, the schedule of employer contributions on page 28, and the schedule of funding progress on page 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Plans' basic financial statements. The combining financial statements on pages 26 and 27 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining financial statements are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 28, 2014 on our consideration of the East Jefferson General Hospital Retirement and Savings Plans' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Pursuant to an IRS determination letter dated March 22, 2012, the Board of Directors approved an amendment to the Retirement (Pension) Plan. The amendment was approved in April of 2012, and clarifies certain language in the Plan to meet the requirements of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) and maintain qualified status.

Effective September 1, 2012, Comerica Bank was retained as the trustee of the Retirement (Pension) Plan.

For 2014, the recommended contribution is \$2,506,300, \$286,519 less than the 2013 recommended contribution of \$2,792,819. This amount has been computed assuming the payment is made on the last day of the year.

For 2013, the recommended contribution was \$2,792,819, \$254,076 less than the 2012 recommended contribution of \$3,046,895. This amount has been computed assuming the payment is made on the last day of the year. Effective with the January 1, 2012 actuarial valuation, the valuation interest rate was lowered from 8.0% to 7.5%, resulting in an increase in the actuarial accrued liability from \$70,572,102 to \$71,765,206.

FINANCIAL ANALYSIS – RETIREMENT PLAN

Defined Benefit Retirement Plan - 2013 and 2012

The net position held in trust for the Defined Benefit Retirement Plan increased by \$5,100,502 during the 2013 fiscal year and totaled \$43,877,027 as of December 31, 2013. The increase is attributed primarily to the \$4,831,944 fair market value appreciation of plan investments and investment income and dividends of \$111,879 and \$1,122,584, respectively, in 2013.

The primary investment advisor, UBS Financial Services Inc., monitors and reports regularly on the performance of the sub-advisors specializing in: Large Cap Equity Value, Small Cap Equity Value, International Equity/Fixed, Fixed Income/Intermediate Term Bonds, and Real Estate. During 2013, the fair market value of investments held by the Defined Benefit Pension Plan revealed a net appreciation of \$4,831,944. UBS Financial Services Inc. has calculated the rate of return for the plan year ending December 31, 2013 at 15.02%. This is an increase of 14.92% compared to the 13.07% rate of return reported in 2012 and .2.62% lower than the Plan's 2013 Policy index (derived from 35% S&P Index 500, 32% Barclay's Aggregate, 17% MSCI Gross EAFE, 10% Russell 2500, and 6% NAREIT).

Employer contributions to the Plan decreased \$254,076 to total \$2,792,819 in 2013. This contribution was approved by the Board of Directors and corresponded to the recommended contribution amount detailed in the 2013 Plan Year Actuarial Valuation performed by Milliman. The comparative decrease in the required contribution is primarily attributable to an increase in the value of plan assets. The actuarial valuation for the plan year beginning January 1, 2014 recommends a \$2,506,300 contribution to the Pension Trust Fund during 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS

EJGH RETIREMENT AND SAVINGS PLANS AS A WHOLE

During the year ended December 31, 2013, East Jefferson General Hospital's combined plan net position increased \$31,006,353 to total \$204,367,169. The observed increase in the plan assets is mainly attributable to positive returns on investments and the excess of contributions over deductions. The 403(b) Plan active participants decreased by 3.5% (76 participants) to total 2,072 at year end, and total contributions for the defined benefit and defined contribution plans decreased \$394,763 to total \$15,637,223. New enrollments to the Savings Plan increased by 4.7% to total 199.

During the year ended December 31, 2012, East Jefferson General Hospital's combined plan net position increased \$20,690,218 to total \$173,360,816. The observed increase in the plan assets is mainly attributable to positive returns on investments and decreases in benefit payments and savings plan withdrawals. The 403(b) Plan active participants decreased by 4.8% (108 participants) to total 2,148 at year end, and total contributions for the defined benefit and defined contribution plans decreased \$512,822 to total \$16,031,986. New enrollments to the Savings Plan decreased by 13.2% to total 190.

RETIREMENT AND SAVINGS PLANS

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plans

General

The East Jefferson General Hospital Retirement Plan and Savings Plan Committee is the administrator of a single-employer defined benefit retirement plan and hospital sponsored defined contribution savings plans. The Plans were established for the purpose of providing retirement benefits for substantially all employees of East Jefferson General Hospital (Hospital).

Defined Benefit Retirement Plan

All full-time employees hired or re-hired prior to January 1, 2005 who are at least age 21 with at least one year of credited service are eligible to participate in the Plan. Plan benefits vest after 5 years of credited service. Employees who retire at, or after, age 62 with 5 years of credited service are entitled to an annual retirement benefit, payable monthly for life, unless the present value amount of accumulated benefits are under \$8,500. In these instances, the employer has the option to distribute benefits to the employee in a lump sum payment. The Plan also provides early retirement benefits at reduced amounts at age 55 with 10 years of service. The Plan also provides death benefits depending upon the payment option elected. This benefit provision and all other requirements are established by the Plan. In January 2005, a resolution was adopted to freeze the defined benefit plan effective April 1, 2005. Non-vested employees hired prior to January 1, 2005 will continue to vest in the plan, pending continual employment through the vesting date.

Membership in the Plan as of the last actuarial valuation consists of January 1:

	<u>2014</u>	<u>2013</u>
Retirees and beneficiaries receiving benefits	770	729
Terminated employees entitled to benefits but not yet receiving them	1,738	1,726
Active employees	<u>712</u>	<u>784</u>
Total participants	<u><u>3,220</u></u>	<u><u>3,239</u></u>

Pension Benefits

The annual benefit at normal retirement will be equal to the benefit accrued through December 31, 1988 under the previous pension plan formula plus, for each year after 1988, benefits accrued under a new formula. Under the formula, benefits accrued at 0.75% of participant's annual pay up to a designated "breakpoint" and at 0.5% of annual pay in excess of the breakpoint. Benefits ceased to accrue effective April 1, 2005 with the freezing of the Plan as of that date.

The pension benefits will be fully vested after five credited years of employment with the Hospital (counting all prior service). Prior service counts for vesting purposes for terminated employees rehired within five years that were not fully vested at termination.

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plans (continued)

Defined Benefit Retirement Plan (continued)

At retirement, the participant may choose to receive a monthly benefit amount in one of several annuity forms – life annuity, joint and survivor annuity, and ten year certain and life annuity.

Death Benefits

If a participant dies after becoming vested, the surviving spouse will receive a monthly benefit from the plan. This benefit is only available to the surviving spouse and will be payable at the time the participant would have qualified for early retirement, unless the spouse elects to defer payments to a later date.

Contributions

The Plan's funding policy provides for actuarially determined periodic contributions.

The actuarially recommended contribution for the plan years ending December 31, 2013 and 2012 is shown below.

Valuation date Plan year	January 1, 2013 2013	January 1, 2012 2012
Annual contribution:		
As a dollar amount	\$ 2,792,819	\$ 3,046,895
As a percent of payroll	6.23%	6.54%
Participant payroll	\$ 44,841,780	\$ 46,621,480

Defined Contribution Savings Plans

The Savings Plans include a 401(a) plan that was frozen to new participants effective December 31, 2003 and reactivated in 2007. The Savings Plans also includes a 403(b) plan and a 457(b) plan that were established effective January 1, 2004.

The 401(a) plan covers all full-time employees who have been employed for a twelve-month period during which at least one thousand hours of service are completed and who are at least twenty-one years of age. With the exception of leased employees, all employees at least 21 years of age are eligible to make elective deferrals under the 403(b) plan. All full and part-time employees are eligible for employer contributions under the 403(b) plan after attaining age 21 and completing one month of employment. All employees are eligible to participate in the 457(b) plan.

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plans (continued)

Defined Contribution Savings Plans (continued)

The number of participants in each of the savings plans (active and inactive) as of December 31 is as follows:

	<u>2013</u>	<u>2012</u>
401(a)	3,476	3,629
403(b)	3,494	3,557
457(b)	710	744

Contributions

The 403(b) plan allows for employee elective deferrals to be made up to the limits allowed by the IRS. Effective April 2005, employer basic contribution increases in 0.5% increments for every five years of credited service. The initial base contribution is 2% for less than five years of service. Matching employer contributions are made at a rate equal to 100% of the elective deferral of each employee up to 2%. Effective in 2006, the plan was amended to change the Hospital's funding to an annual basis, from pay period, and allows for confirmation of an employee's eligibility. Effective January 1, 2011, the plan was amended to convert the matching contribution to a discretionary contribution, which would provide the employer the option of funding the matching contribution in whole or in part on an annual basis.

The 457(b) plan allows employee elective deferrals up to the annual limits allowed by the IRS. No employer contributions are made to this plan.

The 401(a) plan was frozen effective December 31, 2003 and reactivated during 2007. During this period of time, the Hospital discontinued providing the Hospital Basic contributions to the 403(b) plan and began funding these contributions to the 401(a) plan. The Hospital Basic Contribution percentage amounts are provided to participants according to their Benefit Service Date. The participants' voluntary pre-tax deductions and the Hospital Matching Contributions continue to be funded to the 403(b) plan.

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plans (continued)

Defined Contribution Savings Plans (continued)

The employer contribution percentages for the 401(a) plan by Benefit Service Date are as follows:

<u>Number of Years</u>	<u>Contribution %</u>
0 to 5	2.0%
5+ to 10	2.5%
10+ to 15	3.0%
15+ to 20	3.5%
20+ to 25	4.0%
25+	5.0%

Participants' Accounts

Participants in the Savings Plans have separate accounts for each of the Plans. Each participant's account is credited with the Hospital's contribution, if applicable, and Plan earnings. Allocation of the Hospital's contributions is based on Plan compensation. Compensation for Plan purposes is the employee's eligible annual compensation as specified in the plan document.

Vesting

The participant is one hundred percent vested in Hospital contributions after the completion of five credited years of vesting service and upon death, disability or termination of the Savings Plans. Vesting status is not pro-rated for the other defined contribution plans. For this purpose, participants earn one year of vesting service for each year in which they work one thousand hours or more. Any contributions made by participants for the Savings Plans, and earnings on those contributions, are one hundred percent vested to the participants when made.

Withdrawals and Distributions

Participants are allowed to withdraw their own contributions from the 401(a) plan. Hospital contributions may not be withdrawn. Withdrawals are limited to one per calendar year. No contributions may be made to the plan for a six-month period after a withdrawal, and during those six months the participant is ineligible to receive the Hospital's matching contributions.

Only hardship withdrawals are allowed for the 403(b) and 457(b) plans. VALIC determines if a participant is eligible for a hardship withdrawal based on IRS Section 457(d)(1)(A)(iii) of the Code.

EAST JEFFERSON GENERAL HOSPITAL
RETIREMENT AND SAVINGS PLANS
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plans (continued)

Defined Contribution Savings Plans (continued)

Loans are not permitted under the terms of the Savings Plans.

Upon termination of employment for resignation, dismissal, retirement, or death, the participant's contributions plus the vested portion of the Hospital's contributions, and the related earnings may be distributed to the participant or his/her designated beneficiary. In addition, the employee may remain in the Plan, request a rollover distribution, or a distribution in the form of a lump sum or annuity provided by the investment advisor.

Forfeitures

Basic and matching deposits in the account of a participant who separates from service prior to becoming vested are forfeited and used to reduce Hospital contributions.

If a participant returns to service within five years, the dollar amount forfeited is restored to his account.

During the years ended December 31, 2013 and 2012 the 401(a) plan used \$370,639 and \$303,970 respectively in forfeitures to offset employer contributions. During the years ended December 31, 2013 and 2012 the 403(b) plan used \$225,019 and \$121,041 in forfeitures to offset employer contributions.

2. Summary of Significant Accounting Policies

The financial statements are presented in accordance with standards established by the Governmental Accounting Standards Boards (GASB). These financial statements include the provisions of GASB Statement No. 34, Basic Financial Statement and Management's Discussion and Analysis for State and Local Governments and related standards.

Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Interest and dividend income is recognized when earned.

Method Used to Value Investments

Investments are reported at fair value, based on quoted market prices, short-term investments are reported at cost and insurance contracts at contract value, which approximates fair value.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Tax Status

Both the retirement plan and 401(a) plan have obtained favorable determination letters. Although those plans have been subsequently amended, it is believed that they are being operated in compliance with the applicable requirements of the Internal Revenue Code. The 403(b) and 457(b) plans are proto type plans that have been designed to meet the requirements of the Internal Revenue Code.

3. Deposits, Cash Equivalents and Investments

Following are the components of the Plan's cash equivalents and investments at December 31, 2013 and 2012.

	Defined Benefit Retirement Plan	Savings Plans	Total

NOTES TO FINANCIAL STATEMENTS

3. Deposits, Cash Equivalents and Investments (continued)

Cash Equivalents

The cash equivalents totaling \$1,561,520 and \$1,171,968 at December 31, 2013 and 2012, respectively, consist of government backed pooled funds. The funds are held by a sub-custodian and are managed by a separate money manager and are in the name of the custodian's trust department.

Investments

Hospital service districts are authorized under Louisiana R.S. 46:1068 to establish and maintain actuarially sound pension and retirement systems making contributions from hospital service district funds. They may make contracts of insurance with any insurance company legally authorized to do business in Louisiana and may enter into other contracts and Trust Agreements with banks, which are incidental to creating and maintaining an actuarially sound pension and retirement system. At December 31, 2013 and 2012, the Retirement Plan's investments were held by Comerica. The Savings Plans' investments are held by VALIC.

Concentration of Credit Risk

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of the Plan's investment in a single issuer. The Plans' investment policy states that no more than 5% (of cost) of the assets assigned to an investment manager may be invested in the securities of one issuer. At December 31, 2013 and 2012, there were no investment holdings that exceeded the Plan's concentration of credit risk policy.

Credit Risk

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Plans have no formal investment policy regarding credit risk. Credit ratings of the Plan's investments in long-term debt securities as of December 31, 2013 and 2012 are as follows:

2013

Investment Type	U.S. Government and Government Agency	Mortgage Backed Securities	Total
Aaa	\$ 5,164,619	\$ -	\$ 5,164,619
Not Rated	-	1,471,991	1,471,991

	<u>\$ 4,350,664</u>	<u>\$ 2,019,700</u>	<u>\$ 6,370,364</u>

Custodial Credit Risk

Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the Plans will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Plans hold its cash equivalents in a nominee name in the amount of \$1,561,520 and \$1,171,968 at December 31, 2013 and 2012, respectively. The Plans have assets in the amount of \$197,418,280 and \$166,765,349 for December 31, 2013 and 2012, respectively, which are not held in a nominee name or in the name of the Plans and therefore exposed to custodial credit risk. These assets are held in Comerica and VALIC custodial accounts.

Interest Rate Risk

Interest rate risk is defined as the risk that changes in the interest rates will adversely affect the fair value of an investment. As of December 31, 2013 and 2012, the Plan had the following investments in long-term debt securities and maturities:

2013

Investment Type	Fair Value	Less than 1	1 - 5	6 - 10	Greater than 10
U.S. Government and Government Agency	\$ 5,164,619	\$ -	\$ 1,478,496	\$ 2,514,297	\$ 1,171,826

	<u>\$ 6,370,364</u>	<u>\$ -</u>	<u>\$ 1,619,349</u>	<u>\$ 2,091,832</u>	<u>\$ 2,659,183</u>

The Plans have no formal investment policy regarding interest rate risk.

The Plans invest in collateralized mortgage obligations. These securities are based on cash flows from interest payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates.

NOTES TO FINANCIAL STATEMENTS

3. Deposits, Cash Equivalents and Investments (continued)

Investment in Partnership

At December 31, 2013 and 2012, the Retirement Plan was invested in Equitas Evergreen Fund, L.P. As of December 31, 2013, the investment in Equitas Evergreen Fund, L.P. had a cost basis of \$211,815 and a market value of \$36,678. As of December 31, 2012, the investment in Equitas Evergreen Fund, L.P. had a cost basis of \$228,268 and a market value of \$68,194.

4. Savings Plan Funds

During the year ended December 31, 2004 agreements with VALIC were obtained for each of the Savings Plans. The hospital invests each participant's deferred compensation as directed by the employee. The investments are generally mutual funds; however, the plan documents provide for other types of investments. The responsibility for the selection of the investment alternatives has been retained by the Hospital.

The funds are included in the financial statements as December 31, 2013 and 2012 at fair market value.

5. Actuarial Cost Method

The Traditional Unit Credit Cost Method was used to calculate the funding requirements for the defined benefit retirement plan for the years ended December 31, 2013 and 2012. Under this cost method, the normal cost of active participants under normal retirement age is equal to the actuarial present value of the benefit expected to accrue during the next year, taking into account pension, termination, death, and disability benefits. The normal cost for the plan is the total of the individually computed normal cost for all participants.

The funding cost of the Plan is derived by making certain specific assumptions as to rates of interest, mortality, and turnover which are assumed to hold for many years into the future.

6. Funded Status and Funding Progress – Retirement Plan

The funded status of the Plan as of December 31, 2013 and 2012, respectively, is based on the most recent actuarial valuation as follows:

Valuation Date January 1	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Accrued Unfunded AAL	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
2014	\$ 43,903,854	\$ 73,504,221	\$ 29,600,367	59.7%	\$ 40,725,802	72.7%
2013	\$ 38,780,935	\$ 71,765,206	\$ 32,984,271	54.0%	\$ 44,841,780	73.6%

6. Funded Status and Funding Progress – Retirement Plan (continued)

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

The required schedule of funding progress following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Additional information for the actuarial valuation is as follows:

Plan Year	<u>2013</u>	<u>2012</u>

Amortization Method	Level Dollar	Level Dollar
Amortization Period	30 years remaining (Open Basis)	30 years remaining (Open Basis)
Salary Increase Rate	0%	0%

7. Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right under the Plans to discontinue its contributions at any time and to terminate the Plans.

8. Required Supplementary Schedules

Information in the required supplemental schedules is designed to provide information about the Defined Benefit Retirement Plan's progress made in accumulating sufficient assets to pay benefits and is presented on pages 28-29.

9. New Pronouncement

The GASB issued Statement No. 67, *Financial Reporting for Pension Plans* in June 2012. The objective of this Statement is to improve financial reporting by state and local governmental pension plans. This Statement replaces the requirements of Statements No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, and No. 50, *Pension Disclosures*. This Statement is effective for financial statements for fiscal years beginning after June 15, 2013. Management of the Plans is currently assessing the impact GASB Statement No. 67 on the financial statements.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Board of Directors
East Jefferson General Hospital

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the East Jefferson General Hospital Retirement and Savings Plans (the Plans), as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Plans' basic financial statements, and have issued our report thereon dated May 28, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Plans' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, we do not express an opinion on the effectiveness of the Plans' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Plans' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
